

Hardware Requirements

IBM Lotus Sametime 7.5

Operating system: IBM AIX V5.2 and V5.3

- Processor: Dual 475 MHz, or higher, IBM PowerPC processor recommended; Dual 375 MHz PowerPC processor minimum
- RAM: 2 GB recommended; 1 GB minimum
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk swap space: 2 GB RAM recommended; 1 GB minimum

Operating system: Sun Solaris 9 and Sun Solaris 10

- Processor: UltraSPARC III 1 GHz processor, or higher recommended; UltraSPARC III 550 MHz processor minimum
- RAM: 2 GB recommended; 1 GB minimum
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk swap space: 2 GB RAM recommended; 1 GB minimum

Operating system: Microsoft Windows 2000 Server with Service Pack 4, Microsoft Windows Advanced Server with Service Pack 3 and Service Pack 4, Microsoft Windows 2003 Standard Edition, Microsoft Windows 2003 Advanced Edition

- Processor: Intel Pentium III 800 MHz, or higher recommended
- RAM: 2 GB recommended; 1 GB minimum
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk swap space: 2 GB RAM recommended; 1 GB minimum

Operating system: IBM i5/OS V5R3 and V5R4

- Processor: IBM eServer iSeries: all processor features for models 730 and 740, 800-264, or larger 8xx models
- IBM System i5: model 520, or larger
- RAM: 2 GB recommended; 1 GB minimum
- Disk space: 1 GB free disk space recommended to allow space for meetings; 500 MB minimum
- Disk drives: Minimum of 4 drives

Hardware Requirements

IBM Lotus Sametime Enterprise Meeting Server and J2EE computer requirements

Note: The system requirements of the EMS computer and its J2EE infrastructure are shown below. This system should be dedicated to running only the EMS and J2EE components. Do not install a Lotus Sametime server or any other Lotus Sametime components on this computer.

- CPU - Pentium 4 1.8 GHz, or higher recommended
- Memory:
 - o Microsoft Windows 2000 - 2 GB RAM recommended; 1 GB minimum
 - o Microsoft Windows 2003 - 2 GB RAM recommended, 1 GB minimum
- Disk space - 500 MB of free disk space; 1 GB + recommended
- Communication adapter support
- The EMS computer should also:
 - o Be registered in the same DNS domain as the Lotus Sametime servers
 - o Have TCP/IP connectivity with the Lotus Sametime server computers on port 80 for HTTP connections.
